## SUMMARY

An adaptable, quick learner with great communication skills and a willingness to learn. Enjoy problem solving and coming up with ways to improve the user's experience. Currently, in a bootcamp learning skills in the MERN Stack, while working in maintenance for the USPS. Would love to get into a job to continue improving coding skills and putting problem solving skills to the test

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, SQL, NodeJS, MongoDB, React, Redux

**Applications:** Slack, Zoom, Prophet21

## PROJECTS

**Something Special** | <https://github.com/Nickhill2380/something-special> |  
<https://something-special2380.herokuapp.com/login>

- A web based application that provides a service for users to be able to easily access an interactive community forum for event-related decorations. User's will be able to post listings with images of their event items, while also being able to browse other users listings as well.
- Designed the chat service and the dashboard for the website
- SQL, Sequelize, JavaScript, Express

**Dungeon's End** | <https://github.com/Nickhill2380/dungeons-end> |  
<https://nickhill2380.github.io/dungeons-end/>

- Now, you can play your favorite role-playing game wherever & whenever you desire as long as you have an internet connection! Fight against many of your favorite D&D monsters and challenge your friends to beat your high score.
- Set-up the random monster generator back end logic
- HTML, CSS, Materialize, Javascript

**Shop Shop** | <https://github.com/Nickhill2380/shop-shop> |  
<https://shop-shop2380.herokuapp.com/>

- Application designed to let users shop online added items to cart, removing items from cart. Allows users to go through a fake payment process if they are logged in.
- Refactoring code to use Redux instead of Context API
- Redux, Stripe, React, Apollo
